Planning for tomorrow, today

Out-of-Pocket Medical Expenses:

While the majority of end-of-life medical care is paid by Medicare and other insurance or government programs, average out-of-pocket expenses in the last year of life average 12% of total costs, \$9,530.¹ Despite Medicare or private insurance coverage, elderly households may still face considerable financial risk from out-of-pocket health care expenses at the end of life.

Legal and Accounting Costs:

The legal proceedings referred to as probate, and related accounting fees, can be a shock to family and loved ones. Probate costs vary by state while the probate process can take months, or years.

Funeral Expenses: A funeral can be one of your family's largest expenses. The average cost of a funeral is \$7,848. While many believe that cremation is a far less expensive option, data shows that the cost is only 15% less than the traditional funeral.² And Social Security may provide a one-time lump-sum death payment to survivors, however that is just a fraction of that expense, paying \$225 to qualified dependents.³

Policy Riders (available for Level Plan only)

Accelerated Death Benefits Rider

This rider pays up to 50% of the death benefit (less policy loan) if a physician provides written certification that the insured meets the definition for a qualifying event, which is a medical condition that results in a terminal illness with a life expectancy of less than 12 months.

The minimum benefit is \$1,000, and the maximum benefit is \$15,000. An administrative fee not to exceed \$200 will be taken from the benefit amount.

Accidental Death Benefit Rider

This rider pays 100% of the base policy's face amount for accidental death for issue ages 45 through 75.

Children's Term Insurance Rider

This rider provides coverage for a child, stepchild, legally adopted child, grandchild, legally adopted grandchild, or great grandchild.

This benefit is available from \$2,500 up to a maximum of \$10,000 per child, in \$2,500 increments. Coverage amount selected will be the same for all covered children and may not exceed the face amount of the base policy.

Issue ages begin at 30 days through less than 18 years old. Policy becomes convertible to a whole life policy between the ages of 22 to 25.

Protection you can count on

If your policy has a guaranteed cash surrender value, we have non-forfeiture options that offer full or partial benefits, or a partial refund of premiums after a lapse in coverage due to non-payment of premiums. These options allow you to decrease your risk if your policy lapses due to non-payment at the end of your grace period.

Reduced paid-up insurance

This allows your beneficiary to receive a death benefit reduced to the amount of life insurance that can be purchased for the accrued cash value in the policy, if any.

Extended term insurance

This option is available if extended term insurance values are shown in the Policy Schedule.

This option provides level term insurance for the full death benefit amount but for a shorter period of time.

Build cash value automatically

Over time, you can build up a sum of money that may be available to you if you need it. You can borrow your cash value with policy loans exceeding \$1,000 for any reason. Annual interest rate and fees apply.

For complete details of all provisions or benefits, please read your policy carefully.

Automatic premium loan

This option may help pay future premiums. It takes the cash value accrued and applies it toward the premium. If there is not enough cash value to cover the premium as a policy loan, no automatic premium loan will be made. Any remaining value will be applied under the above non-forfeiture options.

You can elect the non-forfeiture option at the time of application and at any time in writing during your lifetime. The option is triggered when your premium remains unpaid at the end of the grace period and you have enough cash value.*

The more cash value you have in your policy at the time the non-forfeiture option is triggered, the more the paid-up benefit or the longer term period you will have.

If you don't elect a non-forfeiture option, an appropriate option will automatically apply.

*In the early years of your policy, you may not have enough cash value for reduced paid-up insurance, extended term insurance, or automatic premium loan.

Guaranteed Level Premium

Your premiums will never increase.

Guaranteed Death Benefit

The benefit paid to your beneficiary is guaranteed while your policy is active.

Match your Social Security deposit schedule

If you're receiving Social Security benefits, we can set up your automatic payments to line up with your Social Security deposit schedule. That way, it's easy to pay your premiums and keep your plan current.
